San Francisco May Capture it if DueEffort is Made.

Associated Press Leases—wire Service

WASHINGTON, April 11.—The opinion is quite generally expressed by Republican politicians in Washington at this time that the next national Republican convention may be held in San Francisco. The California metropolis is looked upon as one of the leading contestants among the cities in the race for this convention, and it is believed by members of the National Republican Committee, as well as by those on the other side, that if the California metropolis makes the right sort of a contest the convention prize may be landed. At the present time the only active candidates in the field are Pittsburgh, St. Louis, Denver, Minneapolis and Chicago. New York, San Francisco, Cleveland and Detroit are passive candidates. Either of these cities, without making any great effort for it, would be ghad to secure the convention. The only drawback to San Francisco, of course, is the distance. Were the convention of the fact that the expense of the delegates would be considerably more, the chances for San Francisco would be greatly enhanced. It is believed, however, that if any reduction of rates can be ecured this objection can be overcome.

Rumors that Consul-General Will iams and Capt.-Gen. Calleja Will Fight a Duel—Recognition Desired.

by Telegraph to The Times.

HAVANA, April 11.—(Special Dispatch.) Jose Marti has been proclaimed president of the new republic. Maceo declined the honor in a most positive manner, as he desires to be in the field when the real desires to be in the field when the real fight begins. The officers of the govern-ment with the exception of president, have not been made public. The places are not exactly desirable ones as they lead to the garrote if not to honor and distinction in the new government. The rebels seem to be fighting among themselves to see who shall rule Cuba long before they have any Cuba to rule.

Cuba to rule. Capt.-Gen. Callejs, when he was quested to grent an interview to the Times correspondent, sent word by a Times correspondent, sent word by a very obsequious private secretary that he had nothing to say on the confluct of America's representative, and added that he had said nothing officially on the subject yet. The Spanish papers here, however, are rabid in their utterance against America's admirable Consul-General, and America's admiratore consul-deneral, and if such things were not encouraged by Calleja, the papers themselves would not be so particular to print, so much about it. These papers also assert that there has been a direct quarrel between Calleja and Consul-General Williams. If the state-Consul-General Williams. If the statement were not true, some Cuban hewspaper men would be in jail for having printed it. The misunderstanding was of such a serious naters that for a long time there was apparently well-authenticated rumors on the streets of this city that Callaja and Williams would fight a duel. There is no immediate prospect of this, however.

As has been already explained, the plans of the revolutionists for the present are to have the forces so scattered all over the island as to keep the Spaniards busy at widely-distant points and bewilder them.

Gen. Gomes, one of the revolutionary leaders, is now either in Cuba or on the eve of getting there. When he is ready the real war for independence will begin. With his center at Santa Clara and a province around him that readily lends itself to military preparations, he will give the Spaniards all they want to do, he holding the richect of the provinces, while throughout the island insurgents will be kreping the enemy busy in detail.

Legislature shall have no power to make any grant of public money or anything valuable to any individual, corporation or municipality excepting in case of public calamity. After a long discussion the section was defeated by a strict party vote, Republicans 50, Democrats 43. The question was brought up a second and third time in different shapes and was defeated by about the same vote.

An amendment was then offered that the Legislature shall have no power to authorize or grant any county or municipality the authority to grant any extra fee, compensation or allowance, nor pay any claim hereafter created against the State, county or municipality under any agreement made without authority of law. The Democratic strength was augmented by the Republicans on this proposition and it passed by a vote of 51 to 43.

Roberts, a Democrat, proposed a section to the hill which was in substance that neither the State of Utah nor any political subdivision thereof shall ever give of loan its credit to any individual, association or corporation without first securing a two-thirds vote of the people. This was lost by a party vote, Republicans 49, Democrats 39.

FRESNO, April 11.—Max Gumpel, the San Francisco lithographer and expert in handwriting, occupied the stand most of today in the second trial of Prof. W. A. Sanders of Reedly for forging the name of William Wootton to a \$1400 draft on the Kuther-Goldstein Company of this city. Gumpel testified in the most positive manner that the signature to the draft was a forgery, and that it was in the same handwriting as the signature to the deed by which thei Wootton ranch was transferred to John Knausch, Milton O. Abbott and W. A. Sanders.

The cross-examination of Gumpel by Frank H. Short, counsel for Sanders, was quite severe, and will be continued tomorrow. Gimpel illustrated on the blackboard the differences between the genuine signature of William Wootton and the disputed signatures, and declared emphatically that the latter were labored efforts to imitate an original. ted Press Leased-wire Sergica.

WILDE SMILED.

THOUGH SUBDUED HE IS NOT WHOLLY CRUSHED.

The Esthete Again Before the Public at Bow-street Police Station-His Companion Sneeringly Indifferent.

JONDON, april it.—(By Atlantic Cable.)

At crowds were gathered at Bow-street police court today when Oscar Wilde and Alfred Taylor were brought from prison in the "Biack Maris" to be examined on remand on a charge of having committed serious misdemeanors. The court opened at 11 o'clock with both prisoners in the dock. Wilde looked haggard and worn, and it was noticed that he has greatly changed since he appeared on the witness-stand to prosecute his suit for libel against the Marquis of Queensbury, the collapse of which action in such an unexpected and sensational manner led to his arrest and the subsequent terrible disclosures. Wilde today was more subdued, aithough he smiled once or twice at certain questions.

Taylor, charged with having acted as an agent for the author and dramatist, behaved in the same sneeringly, indifferent manner as when arraigned last week, and was evidently not as deeply impressed with the seriousness of the charges brought against him as was Wilde. Sir Edward Clarke again appeared for Wilde, and two lawyers acted as counsel for Taylor.

The prisoners are making a desperate fight. Their lawyers today delayed proceedings in every possible way, and the examination of the accused promises to be a protracted affair. Taylor's lawyer said that he would recall all of the witnesse examined on Saturday, was again placed in the witness-box today. He was subjected to a cross-examination by Sir Edward Clark, but his testimony was not shaken. The other witnesses of Stunday.

Charles Parker, 19 years old, the witness examined on Saturday, was again placed in the witness-box today. He was subjected to a cross-examination by Sir Edward Clark, but his 'testimony was not shaken'. The other witnesses of Saturday were not present, but by consent of counsel for the prosecution, who promised to produce them later on, proceedings were continued, and C. F. Gill, who acted as prosecutor for the Treasury Department, placed on the stand Fred Atkins, 20 years of age, described as a variety singer. Atkins said that Wilde took him to Paris in 1895. Further testimony furnished by the same witness was similar to that given by the young men and boys previously examined. He added that Wilde gave him a silver clarette case and money. When asked if he did any writing for Wilde, the witness replied: "Yes, I wrote something about 'A Woman of No Importance."

Edward Sheiby was then called. He was formerly in the employ of Elkin & Matthews, at whose store, in 1891, he said he made Wilde's acquaintance.

Sheiby related how Wilde's attentions flattered him and how Wilde gave him copies of his works with tender inscriptions. He took him to theaters, to the Prince of Wales Club and to ther resorts. The witness also testified in detail as to Wilde's behavior, Then a number of disreputable lodging-house keepers from Chelsea, in which Wilde's home is situated, and several servants testified to Wilde's visits to these houses in company with youths.

The proprietor of the Hotel Albemarie testified how he became suspicious of Wilde and finally issued a writ for a week's bill in order to prevent him returning to that establishment. After the police had presented evidence concerning the arrests, Wilde and Taylor were remained for a week, ball being refused.

WHERE IS WILLIS "AT?"

WASHINGTON, April 11.—The officials of the State Department were silent today when questioned relative to the last Hawaiian news brought by the Alameda and refused to make any response when questioned as to the cause of delay in the report by United States Minister Thurston. It can be stated positively that instructions were sent to Willis on March 5 last, in ample time to have caught the steamer China unless by some accident they miscarried on the way from Washington to San Francisco. Whether they went as far as peremptory demand for Thurston's recall, or were confined to a direction to Willis to intimate that Thurston had been indiscreet in his public utterances and had thus endangered the cordial relations of the two countries, cannot be learned. It is also suggested that the instructions, though actually leaving Washington, never reached Hawaii, but were stopped by telegraphic orders at San Francisco or some intermediate point.

In speaking of the resolution, Representitive Jones said:

"The necessity for such legislation is ally stated in the preamble, Chicago will soon be the greatest city in the United tates. It is more metropolitan now than my other city, and its increasing needs re so vast and various and so different rom those of other positions of the State, hat it should have a legislative body with sower to meet every fluctuation of public adiliment and necessity. No citizen of linois will for a moment consent to make a separate State out of Chicago, and every ditzen désires to do all in his power to did to its growth. My proposition has been hastily drawn, but I believe it is on the right line, and when fully considered will meet with popular approval."

are kept, when he was attacked by five men, overpowered and deprived of his keys before he could make an outery.

Then the convicts fled toward the chapel. As they ran Keeper Carmody raised the alarm and brought out Superintendent Atchison and guards.

Perry and his companions, however, reached the chapel without being intercepted and through that room made their way to the roof through the southe. Then Perry sild down the roof to the eaves, from which he dropped to the ground, the fall being about twenty-five feet. As the others were following his example they were discovered and one shot fired at them. The three prisoners followed Perry's lead and escaped. The fifth exampled back into the darkness where he remained until daybreak, when he was forced to give himself up. It is scarcely probable that the fugitives can long evade capture.

The mystery surrounding the escape of the convicts has baffied the officials of the asylum. The men were confined in separate rooms, all opening off the isolation ward. Each one left his room without forcing the door and the locks are unbroken. In a statement made this morning Carmody said that he entered the isolation ward at 11 o'clock. He passed quietly to the farthest end of the ward where Perry's room was located. The train-robber called to him to get him a glass of water and Carmody replied, "All right," and passed on. He had gone but a few steps when he was seized by the throat by three men whom he recognised as Perry, Hurley and McGuire. He struggled and cried out, but the men ruffed a cloth in his mouth and choked him.

"Kill him," Carmody says McGuire exclaimed.

"No. don't do that; all we want is to get out of here," replied Perry. The question that brought about this mission arose over the making of arrange-miss for the funeral of the late Charles ments for the funeral of the late Charles

The money indemnity is expressed in Chinese taels instead of Japanese yen.

A tael is in reality a weight instead of a coin. It is considered a silver money. Daring Exploit of Two Highwayn Near Cripple Creek, Colo., Yesterday.

Associated Fress Leased-wire Service.

DENVER (Colo..) April 11.—A special to the Times from Cripple Creek, Colo., says that the mail and express wagon which connects with the Midland Terminal Railroad at Grassy, was boarded today about two miles from this city by two men, who overpowered the driver, Robert Smith, secured the express package containing \$15,000, and escaped on horseback.

The hold-up took place about 9:30 o'clock on the summit of Tenderfoot Hill, on the highway between Cripple Creek and Grassy, on the Midland Terminal road. The mail and express wagon was drawn by horses driven by Messenger Robert Smith and was en route from Grassy to Cripple Creek, with mail and express matter received at Grassy on the morning train from Denver and Colorado Springs. Two men sitting beside the road accosted Smith, asking for a ride. He drew up the team and one of the men climbed up to the seat beside him, while the other mounted the bagage behind. As soon as Smith started to drive on the man behind struck him on the head several times with a revolver. The blows staggered him, but did not stun him. The man on the seat with him also drew a revolver and leveled it at him, commanding him to get down and walk to the heads of the horses and hold their briddles. Smith complied and while he was covered with guns they ripped open and rified the mail and express pouches.

After securing \$16,000 and several other valuable packages they unhitched the two leading horses, mounted them and rode off rapidly into the mountains. Smith, who was very weak and was bleeding profusely, drove into the city as quickly as possible. When he drew up in front of the Fargo Express office, he fainted and related what had befallen him. Within twenty minutes from the time the robbery was committed Deputy Sheriffs Starling and Jackson and two hundred men started to scour the hills in search of the robbers was a consignment from Denver by Wells-Fargo Express office, he fainted and related what had befallen him. WASHINGTON, April 11.—The unmistakable threat against Ispan held by Russia in the short notice in its semi-official organ, the Novo Vremys, has caused much surprise in diplomatic circles here. It was supposed that Russia had a good understanding with Japan as to the terms of the peace; that there was an antire agreement upon the propositions touching Korean independence, the acquisition by Japan of Formosa and Port Arthur, and the exaction of au indemnity. As to Great Britain, it has all along been understanding that she was the one power that was disposed to resist aggressions, and was only prevented from actual interference through inability to secure the co-operation of Russia in such a movement.

Charges made by Mr. Heles of Chicago, recently, that Lady Henry Somerset rented considerable of her property here to liquor-dealers, and that her tenements were allowed to remain in a disgracefully unhealthy condition, have caused much indignation among her friends. Relative to the matter Miss Frances Willard says:

"As soon as Lady Bomerset had left the United States statements concerning her salcons, her siums, her parks, etc., were revived. In England none of these criticisms would be received for a moment. It is well known that when she came into her property most of it was under ninety-nine-year leases, with which she could no more interfere than an outsider; a few leases on the public-houses on her estate ran out, and in every instance she declined to renew them."

In the shipment there were several thousand date and fan palms in good condition which would have been in demand had they arrived before Palm Sunday. The only flowers in the consignment that will bring a good price were 10,000 yellow marguerites which will readily sell at retail at \$3 a hundred.

John L. Sandford Killed at Covington.

He Assaults State Senator William Goebel and is Shot for the Break.

The Two Men Were Bitter Enemies, Which Grew Out of Legislative Work—Sandford Fired the First Shot.

Associated Press Lecsed-wire Service.

CINCINNATI, April 11.—In the business center of Covington, Ky., John L. Sandford, cashier of the Farmers' and Traders' Bank, was killed at 1:30 p.m. today by State Senator William Goebel. Both fired at each other on the crowded street. An hour later one of the wealthlest citizens was dead, and a leading politician was in custody at the station-house, while the streets were thronged with excited crowds. The factional agitation over the bloody affair continues to run high tonight on this side of the river, as well as in Covington and other Kentucky towns.

Goebel and Sandford were the leaders of two bitterly-contesting Democratic factors.

tions. The feud is an old one, but it became intensely personal last Saturday when the Covington Ledger published a very bitter attack on Sandford, which the latter attributed to Senator Goebel. The latter acknowledged the authorship. The friends of both have been talking this week in such a manner that trouble was expected the first time the two men mst. The meeting today showed both were well armed. Senator Goebel and Atty. Gen. Hendricks were walking up Madison street. As they approached the First National Band Sandford, who was leaning up against the railing, approached quickly toward Senator Goebel and spoke to the latter, at the same time drawing his revolver. Senator Goebel turned to one side just as Sandford fired. The builtet from Sandford's revolver passed through Senator Goebel's coat and trousers in two places over the hin

content at the same time drawing his revolver. Senator Goebel turned to one side just as Sandford fired. The buillet from Sandford's revolver passed through Sana'or Goebel's coat and trousers in two places over the hip. Senator Goebel's hot draw his revolver and fired, his shot taking effect in the right side of Sandford's fore-head. The first word was spoken and the first shot was fired by Sandford.

There were but two shots, one by each of the sasailants. Sandford's friends deny that the latter was lying in wait for the Senator. Sandford was shot over his left eye, blood flowing profusely on the side-walk before he could be removed. Sandford's residence is four miles out. His family telephoned to friends to bring him home immediately, but he could not be removed. Sandford's son was the only one of the family who reached him before he died. The victim never regained consciousness. He died in less than an hour, and the remains arrived at the homestead about the time of his usual return in the evening. The police were called to keep the crowd away from the seene at the bank during the afternoon and evening.

After the shooting, when he rew Sandford fail, Senator Goebel returned to the ourthouse, stopping only a moment, and them went to police headquarters and gave himself up.

"Here is the reason I killed him," exclaimed the Senator, Jumping up excitedly, and turning about he threw his coat-tails around and showed where the ball of Sandford's pistol had passed through tearing away a portion of the cloth. "He was lying in wait for me. I saw him reach for his revolver I reached for mine."

The trouble between the two men dates back for years. In the Legislature Senator Goebel had, a bill giving the City Tressurer of Covington power to make a store of the first National Bank. I was on my way to the Citizens' National Bank with my friend, Gen. Hendricks. As soon as I have him reach for his revolver I reached for mine."

The trouble between the two men dates back for years. In the Legislature Senator Goebel had a bill giving the City Treasurer of Covington power to make a city depository of any tank he desired. Previous to this the Farmers' and Traders' Bank, of which Sandford was cashier, had been the city depository. The City Treasurer had drawn tunds from the Farmers' and Traders' Bank, which at times amounted to \$100,000, and made the City-sens' National the depository. Senator Goebel had another bill passed removing the toll on the Lexington turnolks of which

Sandford was 57 years old. His wife was a Marshall and a sister of the celebrated Thomas Marshall of Kentucky. Sandford's grandfather was distinguished in the State, being at one time a State Senator and a member of the constitutional convention.
Senator Goebel is a successful business man, as well as a lawyer. He is 60 years of age and unmarried. He located in Covington when quite young. He is out tonight on bail.

From another source it was learned, however, that Lieut. Baker had gone to do some expert engineering for a party which has great faith in his ability as an engineer, and it is believed that the trip has some connection with the Nicaragua Canal scheme. DEPARTED WITH SECRECY.

YOUNG SPRECKELS'S SUIT.

He Replies to the "Sugar King's" Charges with Some Figures.

Associated Press Leased-wire Service.

SAN FRANCISCO, April 11. — In the slander case of C. A. Spreckels against his father, Claus Spreckels, depositions were taken Wednesday and an effort was made to show that the plaintiff had attempted to blackmall E. J. Searles of the Sugar Trust by threats to start an opposition refinery in Philadelphia after his father had cold out to the trust, but plaintiff denied that he had ever made such an attempt, and detailed a conversation he had with E. J. Searles in reference to a proposition made to the witness by a Philadelphian, who had proposed the establishment of an upposition refinery.

In reference to the insinuation that the witness had not accounted for the \$2,250,000 received for the Sugar Trust deal, there was offered a copy of a letter sent by J. Clem Unler to Claus Spreckels, that as manager of the Philadelphia refinery, he had accounted for \$100,000 more than Spreckels's sugar refinery was entitled to. One item of the account presented by C. A. Spreckels was for \$15,000, the commission on \$1,000,000 borrowed by \$\frak{n}{m}\$ from the Seligmans when the Philadelphian needed money.

This made a total of \$2,164,000, leaving still \$75,000 to be accounted for by the young man. This was covered by \$75,392 for interest, and \$3000 for sundry small items which had escaped the memory of the witness.

Associated Frank Leaned-wire Serpice.

SAN FRANCISCO, April 11.—With flashing eyes and arms akimbo, the waiter-girls in Dennett's coffee-house are discussing the latest order from the proprietor of the many coffee-houses in the unoin. This order emanated from headquarters at Brooklyn, N. Y., and is causing his ten waitresses in this city no end of worry. It is to the effect that all frights on the sides of the young women's heads must be combed out straight and plastered down and held by combe if inclined to be fluffy, and the hair at the back of the head must be braided. Puff slevers must be shandoned.

To all this one of the waitresses in this city replied as follows, on behalf of herself and her companions: "It's like this," she said; "we don't take off the curisnot on our lives, we don't. I want to see the man that'll tell me how to dress myself. You know we're in uniform now. We don't mind a good, long prayer in the morning; we don't mind uniform dresses and that sort of thing. But plaster our hair down on our heads and split it in the middle? Ugh Not on his life! It takes an Eastern girl to give in to such a freak as that. This is California, where the 'new woman' is. Special Rates During Flesta Season:

\$2.50 to \$3.50 PER DAY.

Redondo Beach is only 40 minutes from Los Angeles, and trains run almost every hour of the day; besides which there will be a SPECIAL TRAIN on Wednesnesday, Thursday, Friday and Saturday evenings for the benefit of guests who wish to come into the city at night. By these trains they can leave Redondo at 6:10 p.m. and return at 11 p.m.; thus having plenty of time to see all that goes on in the theaters or elsewhere in the evening.

The Hotel Redondo is first-class in every respect—one of the finest on the Pacific Coast, and its bathing, fishing, boating and other attractions are unexcelled. Residents of Los Angeles could not pay their guests a more graceful compilment than by sending them to it for a few days.

Rooms may be secured in advance and all arrangements made by applying at room 43 Bradbury Block, this city, or to

During La Fiesta week visitors to our city will find the mammoth drug establishment of the Owl Drug Co. one of the points of interest, a drug emporium in its appointments far ahead of any similar establishment in America, where only the best drugs and medicines that money will buy are dispensed in all departments. After visiting our establishment we are satisfied your decision will be that there is only one real drug store in Southern California.

The Owl Drug Co., Los Angeles, delivers drugs and medicines free of express charges to any railroad point within 100 miles of Los Angeles when purchases amount to \$5.00 or over, providing orders are accompanied by the money.

Goods delivered free in Pasadena whether purchase is 25c or \$25. Send for catalogue.

Out-of-Town Patrons Who contemplate a visit

To Our

to our city we extend a cordial invitation to make The Owl their headquarters while in Los Angeles, and, if agreeable, such patrons may have their letters addressed in our care.

ANGELES, SS.
Personally appeared before me, H. G. Otts, president and general manager of the Times-Mirror Company, who, being duly sworn, deposes and says that the daily circulation records and daily pressroom reports of the office show that the bona fide editions of The Times for each day of the week ended March 30, 1895, was as follows:

Total 102.505
Gross daily average 14.643
(Signed) H. G. OTIS.
Subscribed and sworn to before me this 30th sy of March, 1895. (Seal)

J. C. OLIVER,
latary Public in and for Los Angeles County,
State of California.

NoTE.—THE TIMES is a seven-day paper, he above aggregate, viz., 102,505 copies, is used by us during the seven days of the peaks, would, if apportioned on the basis of a lx-day evening paper, give a daily average circulation for each week-day of 17,084 copies.

THE TIMES is the only Los Angeles paper which has regularly published sworn statements of its circulation, both gross and net, seekly, monthly and yearly, during the past sweral years. Advertisers have the right to know the NET CIRCULATION of the medium which seeks their business, and this THE TIMES gives them correctly, from time to the contract of the contract o

The gross daily average circulation of THE TIMES for January, 1893—14,657 copies, shows a gain of 118.3 per cent. over the daily average—6713 copies—for the month of August, 1890, the month of "The strike that

THE HORSES THAT WILL SPEED AT THE PARK.

Most Notable Horse Meeting Ever Held in Los Angeles—Some In-teresting Information About Riders.

Great interest is being shown in the coming blood-horse meeting, which opens in this city on Saturday. Undoubtedly the piece de resistance on the opening day is the Newton handicap, valued at \$1000. There is no race more popular with the public than a mile, as the horses start and finish past the krand-stand. There are no less than twenty-five horses eligible to start, but the present outlook is that about twelve will so to the yost.

Two will surely sport the red, white and blue colors of Adriph Spreckels. Whether it will be Cadmus and Bridal Veil or Candid and Bridal Veil is just now a matter of conjecture. At all events, Felix Carr. Barney Schreiber's celebrated jocker, will have the mount on the most heavily-weighted one of the two. It is not yet known who will ride Bridal Veil. She is said to be a wonderfully improved filly over her form of 1894, and Cy Mulkey, the trisiner, has doubtless a competent featherweight under engagement.

Royal Flush is a very doubtful starter. He has been lame since his last race. The Pleasanton stable may send both Blizzard and Captain Coster after the \$1000. One will surely go, as both horses left San Francisco on Wednesday for Los Angeles.

The present calculation is to ride Rus-

Francisco on Wednesday for Los Angeles.

The present calculation is to ride Russell on Captain Coster and Hinrichs on Blizzard. Mr. Jingle has not been showing up well as expected and the chances are that he will not be here. Duke Stevens is a certain starter, bar accidents, and Peters, the Los Angeles jockey, will be in the saddle. Duke Stevens is a scaler but will be a dangerous factor in the race, if he runs kindly.

Whitestone will surely start. He is a great horse just at present and should While & Clark condude to start the son of MacDuff, it is eafe to bet that if he does not win, he will get part of the money. There is also some uncertainty about Midas. If he arrives today or tomorrow Dow Williams will surely send him to the post, as he has been well treated by the handicapper. The latest report about Articus is that he will be too lame to start, which is a pity, as he had a great chance.

Thelma is reported to be a little off and is a doubtful starter. Centella and Garcia will both go to the post. Willie Flynn, one of the crack lockeys of the Bay District track, is under engagement to ride Gardia, who is very partial to a mile.

to ride Gardia, who is very partial to a mile.

Ben H.. Red Head, Little Cripple and Johnny Capron are entered. Two of these may go to the post. It will therefore be seen that the Newton handicap will be the greatest race ever decided over the Los Angeles track.

Crack horses piloted by famous jockeys will struggle for the rich prizes.

In addition to the Newton handicap, the Los Angeles Futurity is to be decided on the opening day. This event will bring together a great band of two-year-olds. The meeting of the stars of the Santa Anita and Spreckels stables should alone result in a grand contest.

The coming meeting promises to throw in the shade any meeting ever held in this city. In fact, the class of horses that will take part at Los Angeles is superior to that now racing at San Francisco.

FINANCIAL AND COMMERCIAL

OFFICE OF THE TIMES,
LOS ANGELES, April 11, 1895.
A study of the German banking system
offers several opportunities for profitable
comparison with the system of the United
States. The safety of the German banking methods, the absence of panics and
crises, the rarity of failure—which are
almost always brought about by illegal
speculation with the funds of depositors—
show that, in certain respects, the system
is a safe one. It may be said in general
that bank charges are as cheap in Germany as in the United States, and that directors exercise the greatest watchfulness, many as in the United States, and that directors exercise the greatest watchfulness, absolute security being demanded in the case of overdrafts, discounting bills, etc.

The following interesting description of the banking system in Germany is from a paper written by Frederick Opp, United States Consul at Breslau, published by the Bureau of Statistics in the last issue of the Consular Reports:

"The head of the banking system in Germany is the Reichsbank (Imperial Bank) with headquarters in Berlin, and represented by branches in 260 places. The Reichsbank is a private inscitution, but under government supervision. The officials are appointed by the State, and the first director is always the Chanceller of the empire.

"The Reichsbank enters the privilege."

clais are appointed by the State, and the first director is always the Chancellor of the empire.

"The Reichsbank enjoys the privilege of establishing branches all over Germany. It has a capital of 120,000,000 marks (\$28,560,000) in 40,000 shares at 3000 marks (\$714) each. The issue of notes is unlimited by any specific provision, but subject to the control of the government debt commission. Government business has to be transacted by the bank free of charge, and payments are made up to the amount of the government fund. The Reichsbank is ordered by law to keep assets equal to its note circulation, viz., one-third in gold and two-thirds in secure bills of not over nirety days' duration. Every firm, business man, landowner, etc., of good reputation is admitted to business with the bank, according to certain regulations and provisions. Before any transaction, however, the applicant has to file an accurate statement of his financial affairs with the bank management. Joint stock companies and other associations have to make a statement of the capital and reserve funds, produce copies of statutes, last balance sheets and lists of shareholders. Foreign firms are excluded from doing business with the bank.

"The bank buys or discounts bills, indorsed by at least fwo reliable paragrams."

firms are excluded from doing business with the bank.

"The bank buys or discounts bills, indorsed by at least two reliable persons, and payable before the and of thres months. The amount of discount charged varies and depends upon the general state of the money market; the present rate is 3 per cent. The bank also buys bills of not less than 2000 marks (\$476,) which have yet to run six weeks at the so-called 'private discount,' which averages about 1 per cent. less than the ordinary discount. Various blank forms, properly filled out according to the bank regulations, have to be handed over with the bills. The month is calculated at thirty days. The bank charges at least 30 pfennings (7.14 cents) for bills up to 100 marks, and 50 pfennings (1.15 cents) for over 100 marks.

days. The bank charges at least 30 pfennings (7.14 cents) for bills up to 100 marks, and 50 pfennings (11.9 cents) for over 100 marks.

"The bank is not obliged to give any explanation in case of refusing bills.

"Any one opening an account with the bank receives an account book in which all transactions are entered. Cash, checks, bills and mortgages are piaced to the credit of the depositor. White check forms are used for drawing, and red forms for transmitting amounts to other places. White checks are transferable; red checks are not. Checks are free of stamp duty. Check books, containing fifty checks, are given to the customer free of charge. Responsibility for these books rests with the customer. If a customer draws on a bank in excess of his funds, the latter refuses payment, and has the right to exclude the former from doing further business. If he draws to the exact amount of his funds the bank sees in his action a desire to close his account. No interest is paid by the bank for deposits subject to drafts. Account balances take place twice a year-on the 7th of July and the 31st of December. A fixed amount for each depositor must always remain as a standing fund. The bank has the right to close the account of a customer without explanation, should the connection prove unsatisfactory.

"The bank undertakes the purchase or sale of stocks, bonds, etc., in behalf of customers. In the former case, the necessary money or good security has to be deposited before any transaction takes place. Sales are carried out after a careful and satisfactory examination. On commission, the bank charges one-sigth of 1 per cent. for sale or purchase on nominal value of the stocks—at least 50 pfennings (11.9 cents) for each class; however, customers who keep their stocks always in charge of the bank pays one-eighth of 1 per cent.; besides this, one-half per mille brokerage is charged. All postage and other expenses fall upon the customer. The bank further advances money on stocks, bonds, coined and uncoined metal: pro-

brokerage is charged. All postage and other expenses fall upon the customer. The bank further advances money on stocks, bonds, coined and uncoined metal; produces bills on behalf of their customers for indorsement, or payment when due, at a moderate charge. It further permits these customers to draw on the bank without having an account, in which case the former must pay the draft promptly when due."

The immense importance, of the sugar industry is strikingly shown in a statement made by the San Francisco Real Estate Circular to the effect that one-fourth of the total freight of the Southern and Central Pacific reads out of San Francisco is composed of sugar and syrup shipments from Mr. Sprackels's rednery in that city and that his freight bills, at half a cent a pound, amount to about \$2000 to \$4000 daily.

GENERAL BUSINESS TOPICS.

In a recent issue of The Times John S. Caikins, the well-known offive man of Pomons, made the excellent suggestion that the olive tree should be utilized as a shade tree for the streets, so that, in course of time, a considerable revenue might be derived from this source. This is a good idea, and might be carried out, not only in the city streets, but along the country roads. In the course of six or seven years the crop from these trees ought to yield a sufficient revenue to pay for keeping the roads in order. The advantage of the olive tree in this respect is that the fruit is not a palatable one until it has been prepared, and would, therefore, not offer any templation to the wayfarer. The olive might side be planted in Elysian Park. Forty or fifty acres of olive trees there would bring in a nice revenue after a few years.

From time to time suggestions have appeared in regard to the cultivation of the tea plant in California. Those who have resided in countries where tea is cultivated know very well that it is impossible to make this industry a financial success, except where the cheapest kind of labor can be obtained. Prof. Sanders of Fresho country has been experimenting in this direction. He gives the following as the result of his investigation: "I soon concluded to count the leaves as I picked them, and I ascertained that I could select and pick 250 leaves in a half-hour. When I worked one-half hour I brought the result to my office, where, as per instructions by my Chinaman, the additional work of willing, rolling, etc., was done. I ascertained that it took about teight thousand leaves to make a pound of tes, and that this pound of tes, from the beginning of the picking to the end of the pandiring, represented two days work, and then it was about such quality as a 'spider-leg' Japan tea, costing 50 cents per pound by the chest."

Mr. Neuer of Monrovia has sold his thirty-acre ranch at that place for \$20,000 and has purchased the Upham Block, on Second street, near Broadway, for \$35,000. Both transactions were made through the firm of Cook & Parsons.

Nelson Story has purchased of Dr. Darling twenty feet on the east side of Spring street, between Fifth and Sixth, for \$8750. The sale was made through Bradshaw Bros.

PITTSBURGH, April 11.—The oil excitement continues unabated. The Standard this morning put the price up 15c to 1.50. On exchange cash oil opened at 1.50 and sold up to 1.60. May options opened at 1.50 hid. The first sale was at 1.60. It then broke to 1.53 and raillied to 1.60 on sales. It was then bid up to 1.63 without sales at 1 o'clock. The opening sale was a cash order for 10,000 barrels at 1.50. The next sale was made at 1.55%. The first sale if May options was at 1.60. This is the highest the oil has been since 1877, when it sold as high as 1.53%. Speculation, heretofore confined to National Transit certificates, has been transferred to Melion Pipe-line certificates, and a sale of 10,000 barrels was made here today. So far this week the advence amounts to 46c a barrel by the Standard and 43c on exchange for May option. A RUNNING FIGHT.

Another Conflict Between the Offi-cers and Train-robbers. Another Conflict Between the Omcers and Train-robbers.

KANSAS CITY, April 11.—A special to
the Star from Hennessy, Okia., says that
the Lacey mail carrier brings news of another desperate battle between the Dowe
train-robbers and United States Marshal's
forces, in which two more outlaws were
killed. Tuesday night the officers had
located them and were waiting daylight.
During the night the birds had flown again.
Taking the trail, they were tracked to a
deserted ranch, seventy miles northwest
of there. The outlaws were surrounded
by officers and challenged. Their reply
was a volley of bullets. Then followed
a desperate fight.

The outlaws attempted to force their
way out, and, after a short battle, three
escaped, closely pursued by part of the
marshals, the remainder taking charge of
the two outlaws who had been killed.
None of the marshals were badly wounded
except one named Moore, who received a
bullet in his shoulder, more painful than
dangerous.

advantage of the flesta last ar was the fact that it introduced our people new ideas in regard to corations. Until within the past years the average American has had much conception of art mats. In fact, the Yankee spirit is in to look down upon anything that kind as something which is re being "nothing in it" from itly, to get anything first-class in vay to Europe, or at least to avail ives of imported European tal t. Within the past decade, however ne has been a great change in this dy art in earnest and have already plished sufficient to show that they can push themselves to the front in this direction as well as in other ss. As we have stated, the flesta t year introduced a welcome in the plan of decorating by to which we have hitherto been the decorations of the average g graceful or attractive, from an ns always to be to stretch strings the streets, to which are at ched myriads of insignificant little ags, which look for all the world handkerchiefs hung out to dry m wash-day. The effect of this is very tawdry. Those who doubt this glance at the Courthouse, re the same plan has been adopted lags being stretched from the tower the roof in several directions. The ffect is inadequate on so large a milding. You can't kill an elephant lth a toy pistol. At the flesta last year a charming effect was produced by draping the telegraph poles and vning them with bunches of palm es, so that the principal streets ad the appearance of being lined with palm trees. This idea might be extended, especially in this where there is such a wealth of semi-tropic vegetation. A few days co a Riverside county nurseryma. shippped 5000 palm leaves to Mr. Wanamaker in Philadelphia for the se of decorating his great store In Paris, where one expects to find he highest development of artistic native work in this line, some of st attractive effects are proused by the use of thousands of mil colored lamps, with which the

ectural features of the buildings are outlined. Any one who has been in Paris on he 15th of August, during the empire, will remember what a fairy-like pectacle was produced along the reat avenue of the Bois de Boulogne by the myriads of colored lamps which

AT THE PLAYHOUSES.

COMING ATTRACTION. — Manager Wyatt has just arranged with the management of the Emily Bancker Company to change some of their dates in other towns and come direct to Loa Angeles to play tomorrom and Sunday evenings at the Los Angeles Theater, which is one week earlier than their original dates. Miss Bancker and her superb company of comedians will present the great English musical comedy success, "Our Flat," which was such an immense success at the Callfornia Theater, San Francisco, where the press pronounced it the greatest comedy hit in the year. "Our Flat" is a play by Mrs. Musgrave, which ran 780 nights at Strand Theater, London. It was produced in New York by Daniel Frohman, and made a hit on the first night that was decisive and emphatic, and for 100 nights it crowded the Lyceum Theater with audiences of the most fashionable quality. "Our Flat" is one long laugh, this term having been applied to it by one of the most accomplished of New York critics. Its fun is incessant, and produces one continuous roar of laughter from the rise to the fall of the curtain. COMING ATTRACTION. - Manager United States government. COMING ATTRACTION.—"The Girl I Left Behind Me" probably comes nearer being the great American play that the world has been waiting for than any other creation by native playwrights. It is both a frontier and society flay. Its depiction of life at an army post, where fine isdies and gailant officers hold a ball, with all the politeness of an affair of the 400 at Delmonico's, is wholly unlike what has been seen hitherto in jurid and Boweryish Indian pieces. It is crammed and crowded and glorious with honest work. The smoking of the pipe of peace, the squattings on bear skins, the manner of the head chief and his companions, their costumes, their campfires, their weird war songs and everything else are photographed in their fidelity. It has delicious touches of humor, the tang of the scented plains and all the elements of movement and pathos to make it a thoroughly great drama. It will by seen at the Los Angeles every night agent week, excepting Monday.

IN SOCIAL SPHERES.

The members and congregation of the First Baptist Church gave a delighful reception last evening, in honor of the seventieth anniversary of the birthday of the pastor, Rev. Daniel Read, LL.D. The platform was a mass of flowers, arranged most artistically; buge looss bunches of calkas formed a hedge about the organ and and filled the corners of the platform. A harp of scarlet carnations stood near the plano, a bridal wreath entwined the rails and baskets and bowls of roses were everywhere in lovely produsion.

Over the doors, on either side of the platform, were the dates 125 and 1895, in pink carnations and vines. When Dr. and Mrs. Read stepped upon the platform, their friends rose to their feet, and waved their handkerchies in hearty greeting. The pastor and his wife, and the four grandchildren grouped shout them. A very interesting programme was rendered, consisting of greetings from the young people, tendered by R. G. Haskell; from the trustees, by I. H. Johnston; fraternal greetings, by Rev. W. W. Tinker, and from the Sunday-school by W. G. Shaw. Capt. F. J. Cressey, chalrman of the evening, made a few cordial opening remarks on "Why Are We Here?" Rev. Dr. Read responded to the greetings in gruteful, kindly words, and the chairman, with a graceful speech, presented to the pastor a purse from the congregation containing seventy silver dollars. The musical part of the programme was delightfully residenced by Prof. and Mrs. C. S. de Lano, Mmes. Cogswell, Jacobs, J. G. Oglivie, Nellie Morfoot, the Sunday-echool orobestra and Edwin H. Clark.

SPOKANE. (Wash...) April 11.—The mystery surrounding the identity of the young bandit arrested in California for the robbery of the station agent at Arroyo Grende, when \$7281 in money was caken, was solved in part by the arrival here today of California papers. A picture of the unknown youth, letters found in his possession and other circumstances show that he is Chartes Clayton Bump of Spokane, one of the best known young men of this city, a youth against whom a breath of suspicion was never uttered. The discovery has created an intense sensation here and his mother is prostrated. Bump is a graduate of the High School He served for a time as deputy city clerk; was a member of the Baptist Church, an ardent sportsman and a swift bleyele rider. He belongs to one of the leading families of Spokane. He gave the name of Herry Bishop to the California authorities. Friends and relatives her believe there is some mistake and do not believe that he ts guilty. They think that he fell in with companions and in a moment of weakness accepted some of the spoils of the robbery.

Electric Light System.

ANAHEIM, April 11.—Anaheim tonight celebrated the completion of its new electric-light system by a grand attest-demonstration and electrical display. Special trains from Santa Ana, Orange and way stations brought great crowds of people into the city, and, upon their arrival, a procession formed, and, headed by bands of music, paraded the brilliantly-liluminated streets. The whole country seemed to curn out, and thousands of men, women and children crowded into the streets until they were almost impassable.

At the conclusion of the parade the crowd assembled in Reiser's Operahouse, when Charles Lorens, the oldest-resident of the city, touched the sidefrif buttod, illuminating the operahouse in colored lights. Never before in the history of the city have so many people been brought together to celebrate an event marking an era of development in public improvements. Electric Light System.

Plan of Co-operative Christian Work.

House-to-house Wisitation Committee—A Grouping of Churches.

Churches.

At a meeting of the Sunday-school Union held last evening in Immanuel Church, Rev. Mr. Vaile read an able address on the need of making a thorough religious census of the city with a view of properly grouping the various churches. The paper is here given:

In a few days the annual taking of the school census will commenced. Twenty chosen men will be employed by the city to make this canvars within aix days. Each year canvassers hired for the purpose make an estimate and asbulate all taxable property.

Each year a census is taken of the city for business, social and other purposes; in fact, an annual census of people and property in the city is found to be a necessary foundation on which is based all correct estimates in municipal, educational and business life.

But educational, political and business affairs do not comprise the only interests which are essential to the welfare of a community, and which need to be based on collated facts and tabulated statistics. The entire prosperity of a community, and epende largely on the moral and religious condition as much system and co-operation are needed in ascertaining these facts. But in the severance of church and state the same of moral and religious conditions as of other facts. This work, so essential to the welfare both of church and state, devolves upon the church. But, owing to the number of denominations, with the entire lack of perish system, with an illadvised grouping of churches, with absence of interdenominational conference or any co-ordination or co-operation in religious work, this moral and spiritual work can not be adequately carried on throughout the city.

Feeling the pressure of this sad fact, feeling the shame of this lack of worldly wisdom and seeking the interests of the whole community, "The City Sunday-school Union" of Los Angeles proposes a plan of practical, co-operative Christian work by which they expect to get at foundation facts, yaluable in many ways and to all, and in the use of which Christian work by more definition of

which they expect to get at foundation facis, yaluable in many ways and to all, and in the use of which Christian work can be more economically and successfully carried on.

This plan proposes a religious census of the entire city, to be taken in the near future by a house-to-house visitation, in one day. This union has feit that organised Christianity, to be consistent with its claims, must project and carry out such a canvase as a basis for further work.

Christianity is placed in the city for the purpose of offering the gospel to all men, and, as far as possible, of producing the gospel life in the entire community. We can only approximate the present religious condition of the city until a census has been taken. It is, however, enough to know that one-half the adults never attend worship, while one-half the public school children have no special Christian instruction; that thousands of strangers come to the city whom we do not take into Christian fellowship, multitudes are in highways of sin over whom Christianity exercises no wholesome restraint.

Christian light and lift and labor should change all this. Strangers should be sought out. All should be invited to some house of God. The neglected of every class should have our active sympathy.

As there is but one faith, one Lord, one kingdom and one salvation for all, therefore all Christians should urite as hearyify and as harmoniously to accomplish this end as though Christ personally was organizing and directing all His followers. The smallness in result and influence of the working of our churches lies in the fact that the churches have not purposed to take the city for Christ. We build without foundations. Solid facts are the only fit foundations for any decent building up of society.

The great value of this annual visitation has been verified in the city of St. Louis. Their first canvass was taken in 1891. So amazing were the facts unfolded, and so helpful the results the census has been using the sense of brotherhood among Christians.

The city will be divided into districts each of which is placed in charge of a chairman, who will subdivide the district into parishes which will be assigned to

into parishes which will be assigned to tactful Christians as canvassers.
These make a house-to-house canvass, being supplied with both family and individual cards to be filled out by the canvasser, who leaves an invitation for each person to attend on the next Sabbath the church of his choice.

Each chairman will tabulate the returns and fill out blank reports, which report with all the cards will be sent to the Central Committee.

These statistics and reports will be carefully filed and systematically indexed to be placed in some central place for consultation by denominational boards, pastors, Sunday-school superintendents and other workers.

Special instruction will be given to the canvassers that the canvass may offend no

one.

The churches, including young people's societies and Sunday-schools, with other societies of Christion workers are to be interested and as far as practicable used. Sermons will be given on the subject the Sunday preceding the canvass, while the canvass will be the subject of prayer the carvass will be the subject of prayer at the mid-week meetings.

The churches will make special arrangements to welcome and interest the new-comers, who will present their cards of invitation on the Sabbath following the canvass. As far as convenient churches will canvass their own locality, though in the absence of any parish system the one ame invitation to all and the accessibility

will canvass their own locality, though in the absence of any parish system the one same invitation to all and the accessibility of returns make this of little importance. It is hoped a list of all churches with locations may be printed in the city pa-pers, while a generous use of the public press would aid the work. This first work of visitation will doubt-less be supplemented and made more ef-

years.

"Also instruct the agents of the Bureau of Animal Industry to make a thorough inquiry as to whether, in their judgment, there is any combine in violation of the law, by which a cattle trust is putting up the price of beef products, while it is putting down the per capita price of cattle. "Very respectfully yours, (Signed)

Signed)
"STERLING MORTON, Secretary." "STERLING MORTON, Secretary."
Concerning the inquiry Secretary Morton said to a reporter of the Associated Press:
"The increase in the price of cattle has been quite remarkable and certain fluctuations seemed unaccountable. It would appear that the primary cause of the increased price is that the supply is decreasing while the demand is constant or increasing, and the four points, so-called—Chicago, Kanses City, St. Louis and Omaha—where cattle are slaughtered, are Chicago, Kanses City, St. Louis and Omaha—where cattle are slaughtered, are falling off in their supply to the market. The reduction last year was 142,347 head of cattle as compared with the year previous. This reduction naturally would bring an increase of price to the consumer. Then, too, corn-fed cattle are preferred, and our supply of corn-fed fell off enormously last year. This in part explains the falling off in production of high-grade cattle. And it is a marked feature of the American consumer that he wants the very best grade of cattle, and the choicest parts, strioin and porterhouse rather than the more nutritive round or neck."

Mr. Morton's inquiries as to the influence of the alleged trust are in part directed by current statements as to the influence which the "Big Four" have in depressing the price of live cattle.

He says that if there was a demand for the live cattle the prices would go up regardless of the combine. His inquiry, he adds, is designed to bring out just what influence the "Big Four" have on prices.

CHECAGO, April 11.—Col. Favorite of the Armour company today when asked in regard to the statements of Secretary Morton that an investigation would be made into the cause of high meat prices, said:

"There is no combine. Secretary Morton knows as well as we do why it is, and as far as we are concerned, we hope that he will investigate the matter thoroughly. He is now shipping grain to the destitute farmers of Nebraska, and their condition is about the same as all the cattle-feeding districts of the Central West. The shipping has fallen off one-half, and a glance at the stockyards statistics would show that nearly 300,000 head less have been received since January than were received last year for these three months."

The Sewer Committee has an important uestion to come before it at the meeting question to come before it at the meeting this afternoon. The report of the City Engineer, as referred to the committee from the City Council, states that he will sign no more certificates for sewer work unless an engineer be employed on Heretofore it has been customary to set grade stakes to one side of the line on which the sewer is to be built, and to give the contractor the grade sheet which shows the measurement for locating the sewer from the stakes. The City Engineer raises the point that he cannot certify to the proper location of work which is not watched by himself or his representative, and the accuracy of which he is unable to ascertain after the construction is completed. The committee should make a thorough investigation of this matter thorough investigation of this matter. Sewer construction is among the most important work done in the city, and the necessity for its being well done is obvious. A competent engineer should certainly have supervisory control over sewer construction, and over all other work done in the public streets which necessitates excavation or the altering of grades. And no street contractor should receive payment for his work until it has been shown by careful and competent inspection that the street or streets excavated have been restored to as good condition as they restored to as good condition as they were before the work began.

HE town is in carnival attire. The store is radiant with the fiesta colors. There is a rapid increase in the sale of fiests ribbons and fiests bunting. Everything is giving way to the carnival of next week. The store is now in full trim for all the business there will be in the next ten days. There is not a department in the house that has not been receiving new goods for this special occasion. More than ever the dress goods department is foremost in the way of attractions. You know how strong the silk department is in the way of prices and in the way of styles. Better goods have never been produced for the money. All silk, figured black Taffetas, one of the scarcest things in the silk line, here for a dollar a yard. All silk checked Taffetas in three special lines for 50c, for 60c, for 75c a yard. The assortment is the largest and finest in the way of new goods yet shown Then there is the most popular line of real Japanese flawless Kai Kais for 40c a yard. Superior in the way of styles; extra from the fact there is no glue or sizing in the goods, one of the most important features in silk-buying. Cheaper goods if you want them in printed Indias for 25c a yard. All along the dress goods line there is great choice for those who come early in the way of prices. Take a look through the dress goods line for 50c, 75c and \$1 a yard. If you need cheaper goods there is three lines for 25c, for 35c and for 40c a yard. No wonder the dress goods trade has more than doubled sales. More new millinery. The kind that everybody wants; the kind that everybody buys. It is fine millinery at popular prices. Special sale of Sailors for 25c and 50c. New today, Carriage Shades and Parasols. Buy them now for next week. Everybody will be on the street and everybody will be dressed up in their best. Why not you? Silk waists and separate skirts. New all wool Suits. They fit better and set better than made to order goods. The Jury in the Levreau-Clary Case Find for the Defendant on All Points.

Judge Smith and a Jury Investigat ng a Pico Heights Shooting rape—The County Treasurer Mandamused.

The Park Commission yesterday took action on the matter of boating privileges at Westlake Park, the present contract for which is soon to expire. Action was also taken on the matter of introducing the most desirable shade trees in residence

localities.

At the Courthouse yesterday Judge Smith and a jury heard the evidence in the case against J. J. McCarty of Pico Heights, charged with having shot at his partner. The much-talked-of mandamus proceedings against County Treasurer Fleming were commenced, and an alternative writ issued returnable before Judge York on Monday next. The Children's Parade.

A report was in circulation about the City Hall yesterday to the effect that cer-tain representatives of the American Pro-

tain representatives of the American Protective Association were about to attempt the removal of School Superintendent Search from office on technical grounds. The reason assigned for such a movement was that he had declined to permit a representation of a "little red schoolhouse" in the Children's day fiesta parade.

Superintendent Search, when asked by a reporter in reference to the matter, showed a copy of the instructions as issued in printed form by the fiesta management to the various fiesta committees. The instructions to the School Committee (of which Superintendent Search is chairman.) are, as shown by the printed circular, that that committee is to secure for the parade as many school children as obtainable. Superintendent Search, said that, in the face of such instructions, he believed the face of such instructions, he believed the had nothing to do. He had, therefore, declined to act on it.

The Courts. THE COUNTY TREASURER MANDA-MUSED BY JUDGE YORK.

In response to the application of C. C. Cook an alternative writ of mandate was issued by Judge York late yesterday afternoon, directing County Treasurer Fleming to appear in Department Three on Monday next to show cause why he should not be ed to pay the \$75 warrant pre-

by the petition from the salary rund of the county.

Cook, who is a deputy in the County Recorder's office, sets forth in his application the fact that on January 12 last the Board of Supervisors, after due examination, allowed Recorder E. C. Hodgman a chief deputy at a salary of \$110 per month, two deputies at \$90 each, and five deputies at \$75 each, one at \$70, and a number of copylists at \$45 cents per folio, all of these deputies being absolutely necessary to properly conduct the business of the office.

In order to show the increase in the business of said office, the following eloquent figures are quoted: During the month of January the fees collected were \$3311.75; expenses, \$2221; folios, 17,827. In February, the fees were \$3418.95; expenses, \$2604.85; folios, 18,646. In March the fees amounted to \$3808.05; expenses, \$2797.27; folios, 19,836.

A PICO HEIGHTS SHOOTING SCRAPE.

A PICO HEIGHTS SHOOTING SCRAPE. In Department One yesterday J. J. Mc-Carty appeared before Judge Smith and a jury to answer to the charge of having as-saulted H. H. Kring with intent to com-mit murder at Pico Heights, on February, 26 last.

saulted H. H. Kring with intent to commit murder at Pico Heights, on February, 26 last.

From the evidence introduced upon both sides, for the case is ready for argument and submission to the jury, it was gathered that Kring, Crotty and McCarty were copartners in a saloon on the corner of Pico and I streets, on Pico Heights, and that some ill-feeling existed on the defendant's partragainst the others, whom he evidently believed to be in league against him. On the evening of February 26, McCarty entertained a few male friends at the saloon, and, after carousing in the bar-room, they adjourned to the kitchen for supper. While discussing this meal Kring noticed that the lights were suddenly extinguished in the bar and ran out to see what had caused the peculiar phenomenon. Just as he reached the door McCarty stepped out and struck him on the head with a gun, knocking him out into the street. Before Kring had a chance to recover himself McCarty jumped on top of him, and, choking him with his left hand, fired three shots sethe prostrate man's head, with the pistol in his right hand. Kring struggled desperately, and managed to spoil his partner's aim by a miracle, and McCarty finally got up, and, after cleaning the rest of the gang out of the house, quieted down. He was shortly afterward arrested and taken to the County Jall.

The exact cause of the dimculty is known only to the parties interested, for, being immaterial to the master at issue, it was not brought out. McCarty claims of course, that he only acted in self-defense, and since no one was hurt it is very probable that the jury will give him the benefit of the doubt, when the case is submitted today.

Strohm vs. Nydia S. Niles et al.; an action

Judge Shaw tried the case of Samuel Strohm vs. Nydia S. Niles et al.; an action to recover \$700 and interest, alleged to be due upon a promissory note, in Department Five yesterday, and at the close of the evidence took the matter under advisement.

The defendants admit the execution of the note in controversy, but insist that the rull amount claimed is not due. They aver that H. J. Niles, one of the defendants, paid a man named. Dunton \$527 for Strohm's benefit, and ask that said sum be applied on the note.

By way of counter claim they alleged that plaintiff sold one share of the capital stock of the Agricultural Park Association left him by William Niles for \$50, which he failed to pay over to said Niles. Furthermore they assert that the note was given to Strohm in acknowledgment of his liability as one of their sureties on an appeal bond to the extent of \$654 in a case carried up to the Supreme Court, and that he holds as security for the same ten shares of the capital stock of William Niles & Co., which he has never sought 10 forecloss.

SENT TO HIGHLANDS. Arnaud Etchechury, the Basque sheep herder who has been under treatment a the County Hospital for some weeks pas was duly adjudged insane and committee to the State Asylum at Highlands by Judge Shaw yesterday, in accordance with the recommendation of the examining com-

Etchechury, who is about 27 years of age, has been employed on the Bixby ranch for some time. It has been his custom to come into town periodically for a fresh supply of sour wine with which to dissipate the solitude of his camp. Upon one of these occasions he wandered into San Pedro and was promptly invited to join a carnival party in one of the dives at that place. He claims that he w drugged, but whether this is true or n cannot be ascertained. He was found in a condition of utter imbeeility next day, and for two weeks thereafter was taken care of by M. Ordoqui of this city by whom he was known, at Bixby's expense. CLARY'S VINDICATION. The jury in the Redondo case of P. Levreau vs. H. Clary, after having struggled with the matter all night, came into court at 9:25 o'clock yesterday morning with a verdict for the defendant, thereby acquitting him of the implication of forgery and practically branding the plaintiff as a perjurer.

with a verdict for the detendant, thereby acquitting him of the implication of forgery and practically branding the plaintiff as a perfurer.

The matter was submitted to the jury upon specials issued, which, with the findings of that body, are as follows:

Q. Was the Body of the paper, marked "Defendant's exhibit 6," and dated November 14, 1894, written before or after the letters "P. L., Gardena, Call" A. Before, Q. Was the paper, marked "Defendant's exhibit 6," and signed "P. L., Gardena, Cal.," signed by the plaintiff? A. Yes, Q. Did the defendant at any time subsequent to September 4, 1894, make any payment to plaintiff on the contract set forth in the complaint for the purchase of the real property therein described, and, if so, what amount did be pay, and when was such payment made? A. Yes, \$1000; in November, 1894.

The jurors, upon being polled at the request of the plaintiff, were found to stand 9 to 3, 11 to 1, and 10 to 2 in favor of each of the issues respectively.

A GERMAN SEDUCTION CASE.
Fred Hoffman, a carpenter, was arrested yesterday by Constable Yonker upon a warrant issued by Justice Young at the instance of Anna Gahm, charging him with the serious crime of seduction under promise of marriage. He was duly arraigned in the township court and, in default of bonds in the sum of \$8000, committed to the County Jall id await examination.
The complainant, who is a respectable German girl, alleges that Hoffman accomplished her ruin at Westlake Park on May 10, 1894, after repeated promises of marriage, and that as a result of her weakness and his blandishments, she is now a mother.

Circuit Court. 'JAYHAWKER" WOODARD SUES FOR A BIG COMMISSION.

Suit was commenced in the United States Circuit Court yesterday by James H. Weodard, now of Cincinnati, but formerly a resident of this bity, against W. H. Perry, W. J. Brodrick and Samuel H. Mott of this city, to recover \$180,000, alleged to be due as commission for serv-

Yale's La Freckla.

Death to Freckles.

Mme. M. Yale was recently asked the question "which of her discoveries she considered the most wonderful." Her reply was as follows: La Freckla, because it unmasked my own face from a filthy mass of freckles and gave me the beau-tiful rose leaf complexion which you see and which has been admired by the people of every nation. Before I dis-covered La Freckla I was a freckled face individual, disgusted with my own appearance. Today I am the envy of every woman who looks at my skin.

La Freckla will remove any case of freckles in existence and leave the skin as transparent as crystal. One or two applications removes tan and sunburn. It takes from three to nine days to destroy every trace of freckles. It is the only remedy known to the world that does this. Now is the time to use La Freckla, as it strengthens the skin, removes and prevents freckles and sunburn. \$1.00 per bottle. Sold by all kruggists or

In his complaint Voodard alleges that on April 17, 1893, the defendants, who owned a large pumber of shares of the capital stock of the Los Angeles Water and Crystal Springs Land and Water Companies, were desirous of selling the same. That with the view of doing so, they entered into a contract with him whereby they employed him, as their agend, to sell all of their shares at \$50 per share. It was agreed that he should have the right to join with and become one of the purchasers, and that his doing so should not affect his commission in any way.

He claims that he procured R. B. F. Plerce and John C. Shaffer as such purchasers, and took a one-third interest in the purchase, and took a one-third interest in the purchaser, and took a one-third interest in the remaining shares, the defendants acquired. By assignments and sold the same to said purchasers, and that all of said shares were subsequently assigned to the Union Trust Company of San Francisco in trust for said purchasers.

After the deal was consummated, however, the defendants failed to pay him his commission, amounting to \$30,000, which, he claims, is still unpaid and due.

NIGGER SLOUGH MURDER.

Coroner's Jury Determines the Man-ner of the Killing—The Basque Sought Advice, but Has not Followed It.

"My God, what have I done?" What will

become of me?"

These were the words uttered by Martin Toledo, after he had slain Jean Guezalmburu, according to the testimony of Jose Goyeneche, the only witness of the tragedy,

buru, according to the testimony of Jose Goyeneche, the only witness of the tragedy, at the Coroner's inquest yesterday.

The inquest was held at Kregelo & Bresce's undertaking rooms. Dr. E. A. Bryant, who had made an autopsy, described the wounds on the head and body of the dead man, showing that death was caused by blows on the head and body with a stick of wood. The skull was crushed in, and the chest was bruised, and the knuckles of one hand were broken. The bludgeon with which the crime was committed was in evidence. It is a piece of firewood about four feet long, slightly curved, about three inches thick at one end and five inches at the other, truly a murderous weapon.

George Carson, the proprietor of the Dominguer ranch, on which the tragedy occurred, testified as to the relations existing between the two men, who were his employees, which were friendly until a short time ago, when a dispute arose between them concerning the transfer of an account for wages, the murdered man having action of the count for the step of the carson's eheep camp, in the place of Totedo, who had been laid up for a while by sickness.

The principal witness was Jose Goyeneche, a Basques dependent estilled that the three

men were eating supper in a cabin at the sheep camp Tuesday evening, when Toledo, accused Gueralmburu of circulating some false stories about him. Gueralmburu denied the accusation, and the two men were soon engaged in a heated quarrel. From words they came to blows, Toledo striking his adversary with his fist.

They finally got outside the cabin and Gueralmburu started to run away. Toledo evertook him and threw him to the ground. Then he seized a stick of firewood and struck the prestrate man a murderous blow across the back of the head. He followed it up with several additional blows.

Goyeneche was too frightened to inter-fere at any stage of the fight, as he is a small man and could not have parted the combatants if he had tried.

a small man and could not have parted the combatants if he had tried.

The tragedy occurred between 4 and 5 o'clock, and seemed very penitent over his deed. He then took a horse and rode to Los Angeles. His presence in the city was not known till J. P. Goytino, editor of a paper published in the Basque tongue, received a note from a woman, stating that Toledo was in hiding in town and wanted to know what was best to be done. Goytino sent word to him to surresider himself.

Deputy Sheriff Aguirre yesterday recovered the horse which Toledo rode into town, and said last night that he believed he had the murderer located, and would soon drag him from his hiding-place. Toledo has many friends among the residents, who might try to conceal him, but it is believed be cannot long evade the officers if he remains in the city.

Guezaimburu was 45 years old and unmarried. The Coroner's jury found that he came to his death from blows on the head and body from a club in the hands of Martin Toledo.

They stayed at Seven ks until about 2 o'clock in the morning, en all of them but Ball proceeded to the Meadows, reaching there about day-ht. They found Marshall's horse tied the corner of the cabin and the posse I behind trees and logs to wait for Marshall to come out, so they could arrest to some after daylight. Marshall came out

Soon after daylight, Marshall came out of the cabin and got wood and water, with rhich to get his breakfast, but the posselld not molest him at this time. After reakfast he saddled his horse and slung is rifle, a needle gun, upon the horn of he saddle, and started up the trail. Roberts stepped from behind a tree and levilling his rifle ordered Marshall to throw phis hands. In place of doing this Marshall dodged behind his horse and began mislinging his rifle of Marshall was at that time a dead shot, being able to shoot fif a squirrel's head at eighty yards, and toberts knew his safety lay in quick actor, so he shot at Marshall's head which was in sight above the saddle. Roberts knew his safety lay in quick action, so he shot at Marshall's head which was in sight above the saddle. The ball, however, struck the back of the saddle and glanced upwards, passing through Marshall's hat rim. Marshall then stuck his rifle beneath his horse's neck and shot at Roberts, but Roberts turned sideways just in time to avoid being shot in the abdomen. It would seem that with Marshall this shot is a favorite.

Marshall then ran across the cienega and williams took after him, emptying his revolver as he went, and Roberts also shet at him several times. Marshall ran zignax across the meadow, which is narrow at his point, and when he reached the other side he kneeled behind a tree and endeavned to extract the shell which had stuck in his rifle. Williams continued running so toward him, shooting as he can, and lust as Marshall got the shell out of his rifle Roberts began yelling to Williams to "Run, Billy, for God's sake, or he will kill you," and Williams seemed to realize for the first time his danger, and, turning, ran with the speed and agility of a deer to a rece, behind which he hid, just as Marshall was drawing a bead on him. Before Marshall could pull the trigger, Roberts, who was lying behind a log, shot him in the eff leg. which was sticking out from behind the tree. The foall from the rifle, to 40-82 caliber, entered just above the left nees on the inside, passed diagonally enstayed. lengthwise through the limb, coming out near the hip. The bone was shattered, and the force of the ball threw Marshall's leg unward, the knee striking him in the

As soon as he was shot, Marshall's cowardice came to the surface, and he began acreaming out at the top of his voice. The posse, however, who were half frozen from their long wait on the cold ground, and also possibly suffering from nervousness, waited quite a while before they accepted his invitation to come and help him. They explained the delay by saying that they understood Marshall to be inviting them to come forward so he could dispatch themone at a time. As soon as he was shot, Marshall's cowar

The next day Marshall was packed down to Seven Oaks, and, although under the influence of opiates, at any jar of the litter he would scream so he could be heard a mile. All his courage had deserted him.

Upon examination it was found that besides the wound in the leg a bullet had plowed a groove about foor inches long just above his heart and parallel with his ribs. Another bullet had entered his contained and the seven undoubtedly fired by Roberts, as Marshall sig-saged across the ciença; his manner of running revealing that he had made a study of such things, even if he had not before been under rear fire, and, had he not run in this manner, Roberts, who can kill a deer on the run, would have undoubtedly killed him before he got across the clenga.

kill a deer on the run, would have undoubtedly killed him before he got across the clenega.

It was decided not to amputate the leg, though the bone was shattered into very small splinters, and he finally recovered, although his injured leg is about two linches shorter than his uninjured one.

Marshall appeared very much relieved when he was authoritatively informed that his arrest was solely upon the charge of stealing harness and hay. He said privately that he cared nothing for the charge of stealing, but there were other things of which he was very much in fear.

In appearance Marshall is six feet tall, and, before being shot, was well formed and powerful in appearance. His eyes are of that peculiar steely blue which lead one to avoid making the owner angry, and his complexion is sandy. He has long been regarded as a desperate man, and Chestnut jumped his bond, fearing thet Marshall would kill him on sight. Owing to Chestnut's disappearance no evidence could be produced against Marshall, and he was finally discharged, though it was firmly behaved by many that he belonged to an organized band of thieves who stole horses from in and about Los Angeles and ran them into Mexico and Arisona.

At the Aroade the painters have been at work for several days, but they will need to get a great big move on in order that a good showing be made when La Flesta opens. At La Grande De-pot the decorators will take charge today, and while no elaborate plan of ornamenta-tion has been designed the picturesque nilding will be entwined by bunting and a colors distinctive of the feative sea-

The crowd that will throng to Agricultural Park by this route. Trains will leave the Arcade Depot at 1:10, 1:45 and 2:20, landing passengers within a very short distance of the track. Returning to the city the first train will leave University at 4:42, and will make connection with trains for outside points at the Arcade. The second and last train will leave University at the conclusion of the racing programme for the afternoon.

ELECTRIC VERSUS STEAM ROADS.

The construction of electric railways

The construction of electric railways upon country roads has gone on apace, but the Supreme Court of Pennsylvania has rendered a decision which draws a distinction between steam railroads and street railways. It says: "The steam railroad is clothed with the power of eminent domain railway company does not possess the power of eminent domain. It cannot build under its charter alone. It must have the under its charter alone. It must have the consent of the proper municipal or local authorities or it cannot move. If the proposed line passes through a city, borough or township intermediate the termial, and that city, borough or township refuses its permission, the power of building the road described in the application charter cannot be exercised. It must be possible for the company to complete its line before it has a right as against any city, borough or township into which its line extends, to begin work. It is not possible for such company to complete its line without the consent of the local authorities of the district through which it passes, and where this is refused in one or more of the municipal or quasi-municipal divisions through which its line runs, the building of its proposed road under its charter is an impossibility.

INCREASED VEGETABLE RATE. INCREASED VEGETABLE RATE.

There will be an increase in the vege-table rate on and-after the 1st of next month, over the Southern California road, the rate being raised from 75 cents to 90

cents.
The 60 cent rate on potatoes expires by imitation on the lst, but whether it will be raised to 75 cents is yet a moot point.
There will also be certain changes in the schedule of transcontinental rates, will go into effect on the 25th inst.

THE SCRIBBLERS' PROGRAMME.

The itinerary of the California Press Association is completed. The members will leave San Francisco on Monday at 9. a.m., and will arrive at Los Angeles at 7.30 a.m. on Tuesday. The officers of the association are: J. A. Filcher of the Auburn Herald, president; C. F. Montgomery of the Antioch Ledger, secretary; Gen. T. W. Sheehan of the Sacramento Record-Union, treasurer, and A. B. Lemmon of the Santa Rôsa Republican, chairman of the Executive Committee. The members will be accompanied by their wives or other members of their families, and the party will be quite large.

LETTERS TO THE TIMES.

First-street Cut. LOS ANGELES, April 11, 1895.—(To the Editor of The Times:) The inquiry made in this morning's issue of you paper why work has been suspended the First-street cut. Work has been to the First-street cut. Work has been resumed again today, but in sbout the same manner in which it has been conducted from its inception—with an apparent decire to prolong it as indefinitely as possible. At no time have there been enough wagons in use hauling the dirt away to keep the workmen busy one-half of their time, the greater portion being spent in lounging around. It would naturally be supposed that the opening of such an important thoroughtare, so adjacen to the business portion of the city, would be completed as rapidly as possible, but as now being done it will hardly be finished this year. Who is to blame?

Ennis. The board of directors entered at once upon the discharge of their duties, by electing Hervey Lindley, president; S. J. Beck, vice-president; Niles Pease, treasurer, and Julius H. Martin, secretary.

The capital stock of the association is set at \$50,000, of which amount \$26,000 has been subscribed, and, as originally agreed, will be collected by 10 per cent. assessments at intervals of not less than one month. The first assessment of 10 per cent, was made at the meeting on Wednesday night, and now the question of a suitable site is being debated, and, with a suitable location decided upon, there is every reason to believe the new Masonic temple will be carried to early completion.

A LUCKY STRIKE.

A MINERAL STRIKE MADE IN THE EHRENBURG COUNTRY.

Group of Valuable Patented Claim in Lower California Beginning to Yield a Rich Return to the Owners.

To start off on a holiday trip expecting to be absent about a month and have eight months fly over one's head before again sitting at the family mahogany, is carrying the holiday snap to the extreme limit. This is just what has occurred to a trio of Colorado men who, lured by the will-o-the-wisp of mining adventure, have been prospecting in the Southern country. Fred Cramer is an ex-sheriff of Arapoe county, Colo.; H. C. Russell, is a business man of Denver, and fairly well fixed as to this world's goods, and D. T. Cahill, the last of the trio, is a mineralogist and all-round mining man. When

they started out from Denver it was with the friediton of making a trip up the Colorado River and then returning home. Starting out from Yuma they got as far as Tyson's Wells, twenty-two miles from Ehrenburg, when the mining fever at-tacked all three badly. They had it in its most virulent form, so headquarters were made at Tyson's Wells, and prospecting became the business of their lives for the time beling.

made at Tyson's Wells, and prospecting became the business of their lives for the time being.

It is a common saying among old-time prospectors that there's no use fighting against the "damphool" luck of the tenderfoet. These three Colorado men were not tenderfeet, by any means, but to some extent they had the supposed luck of the average tenderfoot. Without any very great expenditure of time or labor they made a strike that, to quote their own words, that if in Colorado would be a \$1,000,000 proposition. On the claim staked out there is a two-foot ledge with stringers of Mexican quartz from which the chunks of gold can be picked out with a knife. The assays made show that the ore in sight will not fall below \$50 to \$60 per ton, and, as it is free milling, that means a pot of money to the Snders. A 200-foot tunnel is being run from the base of the hill, upon which the find was made, in order to strike the ledge, in the belief that the rich stringers will consolidate into a phenominally rich vein of mineral as depth is obtained.

Apropos of this lucky find it is a curious fact that all the big bonanza mines have been discovered in hap-hazard fashion. To devote a life time to hunting for mineral wealth means, more often than not, that the reward will be utterly inadequate to the time and labor expended, not to mention the privations of the prospector's life at all. The gnomes of the underearth blind the eyes and obscure the judgment of the searchers and, though a claim may be opened up upon it, it is they who buy it for the price of an old song that ple up the millions.

Mr. Cahill has now become identified with a gentleman who is engaged in developing a group of fourteen patented claims in Lower California, about sixty-five miles

the Mont Cenis. St. Gothard and Ariberg tunnels. There is sow a project to deve another through the Simplon, which, as planned, will be about twelve miles in length, or three miles longer than the St. Gothard tunnel. Near the village of Galeria, in Peru, perched at an attitude of only 100 feet below that of the summit of Mont Blane, there is in course of construction a tunnel over one thousand yards long above the line of perpetual snow. The rarity of the atmosphere is such as to make it extremely difficult for the work men to carry on their labors.

Trinity Epworth League of this city.

At 2 o'clock the conference reassembled, and the praige, service was conducted by Miss Mabel Gocke, at Downey. Reports from the leagues were then taken up, and the afternoon devoted to hearing of the work and progress of the organizations in the different parts of the State. Majerial progress was reported from every quarter. About sixty reports were read.

The session last evening opened with a praise service led by Henry Atkinson of Santa Ross. Bishop O. P. Fitzgerald of San Francisco delivered a very interesting and entertaining address upon the subject, "The Epworth League, the New Child of the Church." The large audience was charmed with the sittinable prelate's address, which was practical and clear.

A Hard Crowd.

A Hard Crowd.

Fifteen Chinese prostitutes under indictment for vagrancy were in Justice Morrison's court resterday. The joint complaints standing against them were dismissed on motion of the District Attorney and a new complaint issued in each individual case. Col. F. B. Guthrie has been retained to assist the District Attorney in the prosecution. The cases were set for Monday at 3 p.m. io plead. All furnished bonds. The scene in the courtroom was an interesting one. The fifteen defendants had on their most gaudy apparel, and the room was almost filled with male Chinese, all of whom take a lively interest in the cases. It is the intention of the District Attorney to get a conviction in each case if it can be done. Attorneys Austin and Phibbs are for the defense.

A Successful Season.

The most successful season of the educational class work of the Young Men's Christian Association has just come to a close. The entries in the different classes have aggregated 370, as follows: Arithmetic, 33; penmanship, 64; book-keeping, 24; shorthand, 15; English, 31; drawing, 34; elecution, 22; French, 12; vocal music, 21; Spanish, 30; guitar, banjo and mandolin, 61. These entries were made by 239 different, young men, representing a very wide variety of occupations. The romarkable growth of this branch of the work of the association has been largely due to its adaptability to all classes of men. The aim has been to give those deficient in the rudimentary branches an opportunity to overcome the defects of

The majority of the young men availing themselves of these classes are from 13 to 30 years of age. The association believes that the best way to keep men from evil is to occupy their time with something better. Some idea may be gained of the power for good exerted in this direction when it is stated that, in addition to numerous lectures, concerts, receptions, etc., the total attendance of the evening classes alone has been over four thousand during the past season.

Flag Raising Ceremonies.

Flag-raising exercises were held at the Seventeenth-street school yesterday afternoon. The building was handsomely decorated, among the other fioral pieces being a big flag composed of white and red geramiums. Recitations were given by Joseph Sabichi and Miss Rowels Moore. The presentation was by Miss Helsm Isaacs. Remarks were made by Rev. Mr. Pitman of the Board of Education, Rev. Mr. Ryder, Rabbi Blum, ex-Gov. Gosper and Superintendent Search. There was a notably large attendance. The flag was the gift of the pupils and teachers to the school.

The presence of the auditor of the Wells-Fargo Company in town for the last day or two has caused considerable curiosity, and when it became known this morning that there was a serious muddle in the company's accounts, the friends of the company's agent, P. O. Prince, came to his assistance in straightening the matter out, and made good a delinquency of nearly \$1100. This delinquency, it is claimed, was the result of careless book-keeping, consequent upon serious and long illness in Mr. Prince's family, necessitating his absence from the office, and compelling him to leave his affairs to others, who complicated them for him, until in the last four months he has not known himself how he has stood with the company. The business men of the community when appealed to in Mr. Prince's behalf, expressed the utmost confidence in his probity, and as he is a member of the Masonic, Maccabee, Knights of Pythias and other fraterpal orders, it was not difficult to secure the means of adjusting the affair.

The next meeting of the Southern California Farmers' Institute will meet in this city July 12 and 13, next. The institute comes to this city on an invitation extended by President McFadden of the Chamber of Commerce and I. N. Rafferty, Horticultural Commissioner. The meeting will be a most important one, as representatives will be present from all over Southern California. A representative of the institute will be in this city May 6, at which time preliminary arrangements will be made for the meeting.

A BIG SAMPLE OF SOIL.

A BiG SAMPLE OF SOIL.

S. J. Murdock brought a sample of the wonderful peat-land soil, that has made that section of the country west of this city so famous, on account of its wonderful productive capacity, into Santa Anatoday and shipped it to Los Angeles to the Chamber of Commerce. The sample was about three feet thick and about eight feet deep, neally encased in a wooden form. On the top surface a bunch of green grass was growing on the soil, just as the huge chunk of dirt was dug from the earth. This sample product from Orange county will add a great desi to the curious features of the Chamber of Commerce exhibit in Los Angeles. It will be placed near the Orange county table.

Indications that There Will be a Short Apricot Crop.

POMONA, April 11.—(Special Correspondence.) Inquiring among the owners of and visitors to different apricot orchards in the valley, as to the present condition of the crop, especially as regards quantity, elicits the fact that in many places the cost have fallen off the tree very badly, in fact, a few having scarcely any fruit left, while in others, more particularly those in the lower valley have retained full crops as yet. As to the cause of this condition of things no one seems to be able to give any satisfactory information. The chances are not good for a large crop here.

Associated Frees tensed-wire Service.

NEW YORK, April 11.—A movement is on foot to get the Board of Aldermen to change the mame of the Bowery. The men who are behind the movement have shops on the street. The reason they want the change, they say, is that the reputation of the street is bad and this has been spread from one end of the land to the other.

They picture the business of the Bowery ten years ago with the present and show that it is 50 per cent, less now. They lay all to the name. The first step toward requesting the change is to be that a mass-meeting at which resolutions are to be passed which shall afterward be sent to the Board of Aldermen. There is likely to be some opposition to the change.

SAN BERNARDINO COUNTY.

COUNTY TAX ON CITY BUSINESS

Doings of the City Trustees and the Newly-elected Officers—Peculiar Lecture—Defrauded Ma-

SAN BERNARDINO, April 11.—(Special Correspondence.) The county has heretofore attached to its ordinances imposing a license tax on saloons, certain police regulations as to hours of opening and closing, stc. The Supreme Court has decided that cities have exclusive police jurisdiction within their corporate limits, so that all such county ordinances are void. This invalidates the License ordinance of the county in so far as it relates to saloons inside the cities and incorporated towns of the county. Dist.-Atty. Daley, some time since, gave the board the opinion that it could impose a revenue tax on saloons inside corporations. The Supreme Court has since sustained his opinion. In accordance with this opinion and decision the board his made material alterations in its license legislation. The county license for saloons inside the city limits is put at \$45 per quarter, and outside the city limits at \$130 per quarter. Bankers pay a county license of \$9 per quarter; pawnbrokers, \$15; money-brokers, \$15; caravans, menageries, etc., \$100 each exhibition; others, as jugglers, magicians, rope-walkers, etc., \$10 each exhibition; peddlers, \$15 per quarter; sale of wine, not less than a gallon, from grapes grown in the county, \$5; manufacturing wines and malt liquors, \$10. All of these, except for exhibitions, are for each quarter. CITY OFFICIAL AFFAIRS.

DIED IN THE PARK.

Case of Poison that Might be Snake Bite. About 4 o'clock yesterday afternoo

About 4 o'clock yesterdsy afternoon.
Coroner Campbell was notified that the body of a dead man had been found near the reservoir in Elysian Park. The Coroner proceeded at once to investigate. The body proved to be that of an unknown Italian, about 38 to 40 years old. He was lying face downward under a clump of willows about 200 yards from the reservoir, his fingers buried in the grass and earth as though he had died in great agony and dug his nails into the ground during the death struggle. The face was black and the body rigid, showing every symptom of strychnine poisoning.

Several parties in the park had seen the man a short while before, sitting on the opposite side of the ravine reading a paper. After a while he got up and went to the reservoir to get a drink of water, Then he went to the place where he was found, and lay down. A man living of North Main street, near the river, came upon him just before he died, and found him in terrible convulsions.

The Coroner notified Undertaker Howry to go after the body. The dead wagon could only be gotten within half a mile

of the place, and it was a difficult task to carry the corpse to it, as the victim war a man weighing about 175 pounds. He was dressed as a laborer, and there were no papers or writing in his pockets to show his identity. It was late in the evening when the body reached the undertaker's, and no one could be found who knew the man, or could teil where he lived. The Coroner is of the opinion that he died of strychnine; taken when he went to get a drink of water.

An inquest will be held today.

THE WOMAN WHO IS IN JAIL CHARGED WITH FRAUD.

Few Strictly Honest Women Trave Under So Many Aliases—How Thomas is Trying to Escape the Toils.

Zue G. Peck, attorney for the imprisoned Mrs. Stebbins, alias Hubbard, etc., appeared before Justice Morrison yesterday and asked that her time to plead be changed from today to Monday at 1:30 p.m. The request was granted.

W. F. Thomas, the alleged accomplice of Mrs. Stebbins in defrauding the German-American Savings Bank of \$200, has his examination set for 2:30 p.m. today, but it is probable that a continuance will

but it is probable that a continuance will

be granted in his case also.

Mr. Udell, the attorney of Thomas, has been ranguine all along that the complaint against Thomas would be dismissed.

Mr. Udell, the attorney of Thomas, has been ranguine all along that the complaint against Thomas would be dismissed, but the District Attorney is not disposed to consent to this. It is hinted that the detectives have recursed further evidence of collusion between Thomas and the sileged Mrs. Stebbins.

The woman appears very anxious to make a settlement with the bank, but the money for which she sent to the East than not yet arrived.

One curious fact about the case is that Thomas, after his arrest, swore to a complaint charging Emma Bartiett with the crime of forging the indorsement of Sarah E. Stebbins to a draft, and thereby defrauding the German-American Savings Bank of \$200. A warrant for the arrest of Emma Bartlett was issued by Justice Morrison, March 29, and placed in the hands of the detectives. The inference drawn from this complaint was that Emma Bartlett and Sadie Hubbard, the alleged Mrs. Stebbins now in jail, were one and the same person. It developed, however, that Emma Bartlett was quite another person, and the detectives, on investigation, found her to be a very worthy and respectable woman. She is an acquaintance of the Hubbard woman, but the officers are convinced that she is entirely innocent of any collusion with Thomas or Mrs. Hubbard is an acquaintance of the Hubbard woman, but the officers are convinced that she is entirely innocent of any collusion with Thomas or Mrs. Hubbard's wheresbouts, provided she knew.

Thomas's cagerness to bring about Mrs. Hubbard's apprehension seems to have been due to his desire to clear himself. At present each seems to be trying to shift the cuipability upon the other.

In the first complaint against the woman who got the draft cashed, she was called Mrs. George Steward, which seems to have been another of her aliases. Some seesational disclosures are looked for at the examination of Thomas and the woman.

Police Court Notes

disturbing the peace by an assault on Tilio Randess.

Henry Eckles was arrested yesterday on a warrant sworn out by H. Kivel, accusing him of stealing \$15 worth of paint. Eckles squared the matter with Kivel and the complaint was dismissed on payment of the costs.

Glen Russel, a colored boy, who stole fifty pounds of coal from the California Southern Railway Company's yard, was given a thirty-day floater by Justice Morrison.
